The traditional rules of parenting are no longer applicable.

Today's parents are faced with a unique set of challenges and opportunities. The world is changing at an unprecedented pace, and our children are growing up in a very different environment than we did. This makes it difficult to know how to best raise our children and prepare them for the future.

This book offers a fresh perspective on parenting, with advice and insights from experts and parents who are redefining what it means to raise a child. The authors challenge the traditional rules of parenting and offer new ways of thinking about everything from discipline to screen time to education.

This book is divided into three parts:

1. **Rethinking the Rules:** This section challenges the traditional rules of parenting and offers new ways of thinking about everything from discipline to screen time to education.
2. **Raising Resilient Kids:** This section provides tips and advice on how to raise resilient kids who can thrive in the face of challenges. It covers topics such as building self-esteem, teaching coping skills, and fostering independence.
3. **Creating a Positive Family Culture:** This section offers advice on how to create a positive family culture that supports your children's growth and development. It covers topics such as communication, boundaries, and spending quality time together.

This book is an essential read for any parent who wants to raise happy, healthy, and successful children in the 21st century.
