As Maxwell delves deeper into the investigation, he uncovers a twisted tale of power, corruption, and forbidden love that spans generations. The victim, a promising literature student, had been working on a dissertation that delved into the university's dark past, a past that the administration is desperate to keep hidden.

Maxwell soon realizes that the key to solving the murder lies in a crumbling old mansion known as the Talon, a place where the university's darkest secrets reside. As he pieces together the fragments of the past, he discovers a chilling connection between the victim's research and the Talon's sinister history.

With the help of Sarah Chantry, a brilliant professor and the last descendant of the university's founders, Maxwell uncovers a web of deceit that threatens to consume both the university and the town itself. As they

race against time to unravel the truth, they must confront the chilling legacy of the Talon and the darkness that lurks within the heart of Chantry University.
