Sarah was born with a condition called osteogenesis imperfecta, which causes her bones to be weak and brittle. As a result, she has experienced multiple fractures throughout her life and has had to use crutches to walk since she was a child.

Despite the challenges she faces, Sarah has never let her disability define her. She has always been an active and outgoing person, and she has never given up on her dreams. She has graduated from college, traveled the world, and even competed in a marathon.

In *Walking As Straight As Can*, Sarah shares her story with honesty and humor. She writes about the challenges she has faced, the triumphs she has celebrated, and the lessons she has learned along the way. Her story is a powerful reminder that anything is possible if you never give up on your dreams.

An Excerpt from *Walking As Straight As Can*

I was born with a rare genetic condition called osteogenesis imperfecta. OI affects the way my body produces collagen, which is a protein that helps to strengthen bones. As a result of OI, my bones are weak and brittle, and I have experienced multiple fractures throughout my life.

I have had to use crutches to walk since I was a child. At first, I was self-conscious about using crutches, but I eventually came to realize that they are simply a tool that helps me to get around. I have learned to embrace my crutches, and I now see them as a part of who I am.

Growing up with OI has not always been easy. I have had to deal with stares and whispers from people who don't understand my condition. I have also had to overcome the challenges of living in a world that is not always accessible for people with disabilities.

But despite the challenges I have faced, I have never let OI define me. I have always been an active and outgoing person, and I have never given up on my dreams. I have graduated from college, traveled the world, and even competed in a marathon.

My story is a testament to the power of the human spirit. It is a story about overcoming adversity, living a full and active life, and never giving up on

your dreams.
